It's Time to Get Growing!

POWERSOURCE

ASK JESUS:

1. To guide your children toward growth in all areas this year.
2. To help you model a growth mindset, especially regarding faith in Jesus.
3. To teach you to depend on God during the upcoming school year.

With a new school year on the horizon, attention turns to goals for learning and growing. To encourage academic improvement, many schools now emphasize what psychologist Carol Dweck calls the “growth mindset”—a belief that anyone can learn and grow with effort. Potential is unlocked when children believe they can learn from challenges and by working hard.

By contrast, a “fixed mindset” is a belief that one’s basic abilities and talents are predetermined. These kids (and adults) aren’t interested in learning how to improve because they don’t believe they can.

Dweck’s approach is relevant beyond the classroom; in fact, it applies to faith growth, to some

degree. People with a fixed mindset believe they’re bad and can’t change, that imperfections are shameful, and that if they face challenges, something must be wrong with their faith.

Those with a growth mindset, however, realize it’s okay to share their sins and struggles with others. They know that Jesus loves and forgives them no matter what, and they believe they can grow closer to Jesus by trusting him during life’s inevitable challenges.

One thing we *do* want to be fixed in kids’ minds is their innate, God-given value. God made us in his image and wants to be in relationship with us despite our shortcomings. Because we don’t have to prove our worth to God, we can focus instead on growing closer to him.

TEACHABLE MOMENTS

Breakthrough!

You'll need see-through glass or plastic containers filled with water, foaming shaving cream, and blue and yellow food coloring. Say: **Sometimes life seems cloudy.** Have family members each squirt a layer of shaving cream over the water. Ask: **When have you felt stuck or been discouraged?**

As people share, have them add a few drops of food coloring over the "clouds." Say: **When we face tough things, God is with us and encourages us.**

Read aloud Isaiah 41:10 and Joshua 1:9. Watch as the food coloring breaks through the shaving cream, creating streaks of color in the water. Ask: **How is this experiment like life? How can challenges result in something good or positive?**

Read aloud Romans 8:28. Ask: **What are ways you can trust God during both good and tough times?** Pray, thanking God for always loving and helping us.

Positive Ways to Grow

Instilling a faith-growth mindset can be as simple as altering the praise and feedback you give your children. Follow these guidelines:

- Let kids know God already loves them—no matter what.
- Say the goal is to be best friends with God, not to appear good.
- Praise kids for the effort they put into resisting a temptation.
- Praise kids for getting to know God, not just knowing *about* him.
- Encourage kids to ask Jesus for help when they're struggling.
- Encourage kids to share their failures with trusted friends and adults.

Pressing On Gather origami paper, Glue Dots, and scissors. Download craft instructions from childrensministry.com/origami-star and make a sample ahead of time. Show family members the star and have them make their own. Offer encouragement and help, as needed. Read Philippians 3:12-15 and say: "Paul loved Jesus but still messed up. He pressed on, just as you did with this craft." Ask: "How can these verses help you press on, even when you mess up?"

Take Aim! For this outdoor game, divide a rectangular area in half. Play "volleyball" with an inflated balloon and squirt guns. Players can use unlimited squirts to move the "ball." Afterward, ask: "What was this game's goal? How did we work to reach it? What are some goals you have? Who helps you reach them?" Read Psalm 16:7-8. Say: "God instructs you and goes before you as you aim for goals!"

Growth Takes Time Fill clean baby food jars halfway with heavy cream. (You can add a marble, but use caution.) Secure the lids. Ask: "Does this look like butter? Do you think you can *make* it into butter?" Say: "Shake a jar while we talk." Read Matthew 17:14-20. Ask: "How much faith does it take to do the impossible? What tough thing

do you need God's help with?" Shake jars a few more minutes, until butter forms. Enjoy some on bread. Then discuss how it can take time to see God's miracles—and how we shouldn't give up!

Forward in Faith Clear obstacles from a room that can be darkened. Have one person stand as a lighthouse who whispers "Trust in the Lord" repeatedly. Lead everyone else into the room—with eyes closed. Say: "You have one minute to reach the lighthouse. When you do, open your eyes, lock arms, and join in the whispering." Play several rounds. Then ask: "How did it feel to find the lighthouse? How did it feel when time ran out?" Read aloud Proverbs 3:5-6. Say: "Let's trust God as we walk and grow in faith."

Ch-Ch-Changes Stand in a circle with hands behind backs. Have "It" stand in the center with eyes closed as you place a Bible in someone's hands. Have It open his or her eyes as people pass the Bible behind their backs. Whoever holds the Bible must briefly change his or her facial expression. It guesses who has the Bible, and if correct, that person becomes the new It. Read aloud Mark 4:3-20. Discuss how the Bible changes us and makes us more like Jesus.

"We are surrounded by a great cloud of people whose lives tell us what faith means. So let us run the race that is before us and never give up."

—Hebrews 12:1, NCV

MEDIA MADNESS

MOVIE

TV

Title: *Overcomer*

Genre: Faith-based drama

Rating: PG (some thematic elements)

Cast: Alex Kendrick, Priscilla C. Shirer, Aryn Wright-Thompson

Synopsis: A plant closure in town leads to changes for many people, including a high school coach who must switch sports. When the only runner who shows up for his cross-country team is a girl with asthma, they're both challenged to discover their new and true identities.

Our Take: This life-affirming film encourages viewers to “go the extra mile” for one another and to give Jesus first place in their hearts. It emphasizes that one’s identity in Jesus matters most and that people who follow Jesus are to live out their faith daily.

Title: *Molly of Denali*

Network: PBS Kids

Synopsis: The star of this new animated series is a 10-year-old Native Alaskan girl, voiced by a young indigenous actress. Molly’s adventures help her learn about the 49th state’s people and history. She uses the Internet and in-person interviews to discover what life was like for her ancestors. She also makes connections between their interests and her own.

Our Take: While exposing children to cultural diversity, this show encourages them to be curious about their own heritage. The episodes can serve as springboards for age-appropriate discussions (and research) about your family’s history, stories, and traditions.

CULTURE & TRENDS

Earlier Puberty: It’s Not Just for Girls According to a new study, more boys are now reaching puberty earlier—and one factor may be higher BMI (body mass index). Though the study has limitations, it points to another possible effect of America’s obesity epidemic. (*JAMA Pediatrics*)

Catching the Vision To help kids set and focus on goals, some teachers and parents now use back-to-school vision boards. Assembling a collage of photos to represent reachable goals can be an effective way to develop grit—especially for visual learners. (*various sources*)

QUICK STATS

Every Day We’re Hustlin’ Almost half (48%) of parents of kids under 18 have a side job, working an extra 13 hours per week. And 27% of those with a side hustle say they’re more passionate about it than they are about their regular job. (*bankrate.com*)

Stuffed! Although only 3% of the world’s children live in the United States, they own about 40% of the toys purchased globally. Perhaps that’s why one in 10 Americans rents off-site storage—at the average cost of \$400 yearly. (*uctv.tv; nytimes.com*)

Games, Podcasts & Apps

Cadence of Hyrule

In this rhythm-based “Zelda” spinoff for the Nintendo Switch, players must step (and fight) to the beat to progress through puzzle dungeons. The goal is to collect foes that look like musical instruments in order to defeat the enemy Octavo. Combat is cartoonish in this E-rated game.

Chompers

Kids will look forward to brushing their teeth thanks to this twice-daily podcast. Each episode features two minutes of jokes, stories, fun facts, and silly songs. Weekly themes range from dinosaurs and robots to cooking and interviews. Chompers, geared toward ages 3 to 7, also is available on Alexa.

Superbook Kids Bible

This free Bible app for young readers brings God’s Word to life with the addition of videos, images, and interactive games. It also includes 26 episodes of the *Superbook* series, as well as “Superstreaks” that encourage readers to regularly engage with the biblical text.

This page is designed to help educate parents and isn’t meant to endorse any movie, music, or product. Our prayer is that you’ll make informed decisions about what your children watch, read, listen to, and play.

VBS 2019

We had an AMAZING VBS this summer! Our theme was, "Storm Chasers!" During "Storm Chasers," we learned about God in our storms and how He helps us and is present in hard times. The kids all got to participate in memorable Bible-learning activities, sing catchy, yet meaningful, songs, play games, make and gobble-up yummy treats, and create fun crafts.

We served over 100 children and involved 20 adults! Thank you to all those that helped in anyway with VBS 2019. Our week of VBS concluded with an opportunity to put our faith to the test as we faced obstacles and endured the challenge of Twister with an inflatable obstacle course and Twister!

This year our VBS Outreach raised funds and awareness to provide clean water to rural communities in Sub-Saharan Africa where millions of people suffer from a lack of access to clean, safe water. For school-aged children it's a life-threatening burden that traps them in poverty.

We did this by hosting a "Water Challenge." We challenged everyone to drink water as their only beverage for two weeks and donate what would have been spent on other beverages to The Water Project. If that was not possible, we asked that they would consider a donation matching the amount spent on non-water beverages.

The money we raised from will go to a specific community in need of a Water Project Well. We will be informed on this community within the next 12 months and will get to follow the progress of the project! We set a goal to raise \$1000 and we are almost there! Thank you to everyone who contributed to this VBS Outreach. For more information visit TheWaterProject.org.

Summer HCKids 2019

Over the summer HCKids learned the "DO"nuts of the Bible - aka the 10 Commandments through Doughnuts! We ate our way each Sunday through one Commandment and learned each Commandments and how to obey them. Overall, we learned that Ten Commandments teach us how to treat God and each other. If we follow them, life will be sweeter not just for us, but for everyone we know and love.

BIBLE BUCKS & BIBLE CHALLENGE

Beginning Sunday, September 1, kids can earn "Bible Bucks" for attendance, bringing their Bibles, bringing friends, memorizing scripture and books of the Bible, and more! Each child will have an envelope account kept with HCKids to avoid lost Bible Bucks. On the last Sunday of each month, HCKids' Bible Buck Store will OPEN and kids can spend or save their bucks as they choose - but first they must tithe 10% of their increase.

If you have any suggestions or would like to volunteer, please let Sandra know or email hckids@weareharvest.com

This semester, we are challenging HCKids to a Bible Reading Challenge. The challenge is simple: Read a few verses, chapter or a book for one, two, or five days a week. Mark each day off with an X as you read on the weekly take homes, have a parent sign and bring your challenge sheet back to HCKids each Sunday for Bible Bucks to get a prizes. I have also included two "extra challenges." The first is two questions: What do I learn about God or Jesus in these verses, chapter or book. The second, a memorization challenge: choose one of the verse(s) and memorize and share with others in the class.

Bible Bucks as follows:

- 1 day = 1 buck
- 3 days = 3 bucks
- 5 days = 5 bucks
- Bonus questions = 2 bucks

You might opt to read the passages together as a family or one on one with your child, or you might encourage your child to read the passage their own, helping them to develop his own personal quiet time. Or maybe you choose to mix it up depending on the day! For those that cannot read yet, Picture Bible or a Bible story book is great to use.

Fall HCKids 2019

To begin our Fall Semester, HCKids will be doing a 4-week study called, "Back to School." We will learn that as we trust in Jesus, our future is secure. We will also discuss how to live for Christ, discover our gifts and talents, and how to influence the people around us when we live from the Fruit of the Spirit.

After our "Back to School" curriculum, we are going to gather some intel on what the kids of HCKids want to learn. We will host a 3-week poll to VOTE for the next curriculum with a chance to vote once each week - meaning that one could vote for their curriculum of choice up to three times if they are in attendance! Choices will be from the following:

- "Dive In" (how to Study God's Word),
- "Bible Bricks" (Building Followers of God),
- "Bible Art" (Creating with God),
- "Animal Safari" (Learn about God from Amazing animals),
- "Prayer Warriors" (Teaching kids to talk to God), or "
- "Emoji Prayers" (Talk to God about EVERYTHING with Emojis).

Everyone can vote and on September 15th during HCKids dismissal Ms. Sandra will announce the winning curriculum!
